Metaltec Named Top Product Pick from The 2009 International Builders Show!

By Today's Homeowner with Danny Lipford.

(Irwin, PA – February 18, 2009) Metaltec Innovations is proud to announce inclusion in the Top 7 Picks from the 2009 International Builders Show recently held in Las Vegas by host of Today's Homeowner with Danny Lipford Show.

Out of hundreds of products Metaltec Innovations was #2 in the top seven. The company was chosen for their unique 3-Dimensional decorative tiles, murals, hardware and sculptures - a definite top notch, stand out product from the show, according to the recent announcement on the Danny Lipford website.

Allen Lyle, Co-host and Producer for Danny Lipford says "This is one of those 'ain't no way' items. No kidding, Buck Rogers must have brought this one back from the 25th century." You supply Metaltec Innovations with plans for the design of an object - and they "print" out a three-dimensional metal prototype. Tiles, hardware, sculptures, artwork – imagine layers of a CAD design being printed out, layer after layer, until you have a solid piece of art in patinas like gold, nickel, copper or chrome.
